EASTERN NEWS.

[BY TELEGRAPH TO THE OREGONIAN.]

The Tribune on the President.

NEW YORK, Sept 22—The *Tribune* thinks that a large part of Sunday's alarm was wild and senseless and the editor is especially grateful to President Grant for not losing his head. He has manfully refused to commit a felony in the interest of brokers. The wild talk about the right of the Government to lend money to brokers and bankers on collateral with or without law, in order to relieve a panic was the talk of reckless men maddened by the result of their own insane speculations. To hold that the President has a right to violate law in the interest of operators in stocks is as crazy a theory as was ever advanced by the wildest Red in the stormiest days of Paris. For resisting this madness the people owe Grant their hearty thanks.

Improved Condition of Affairs.

At the Fourth National Bank where there had been a steady run on Friday and Saturday there was only the usual crowd before the counters to-day. By 1 o'clock the feeling of security became permanent, and the crowds down town began to slowly disperse. Leading bankers merchants and capitalists think that from this point affairs will steadily mend. Dividend-paying stocks were in much demand and sought after by investors to-day.

Union Trust Co. Affairs.

NEW YORK, Sept 22—It is currently reported that the Union Trust Co will be ready to resume business in a few days. Only one trustee of the bank has money on deposit in the institution, and with the exception of two or three, they own but little stock. This may account for the bad management.

Jay Cooke & Co publish to-day a statement giving the names of banking houses which will pay drafts of their correspondents. All drafts against deposits made since the suspension will be paid on presentation.

Another Failure.

BUFFALO, Sept. 22—H W Bart & Co private bankers and brokers, closed this afternoon.

Strike of Crispins.

NEW YORK, Sept 22—A general strike of shoemakers is imminent. Two hundred struck to-day because, as they allege, the proprietors have failed to keep to the terms agreed upon at the last strike, and it is expected that all the workmen will strike to-morrow.

Our Regular Murder.

INDEPENDENCE, Mo., Sept. 22—A terrible shooting affray occurred here yesterday. Jas. J. Chiles got into a street fight with one Jas. Peacock, during which a pistol dropped from Chiles' pocket, and was picked up by his son, a boy of 14, who shot Peacock in the back, inflicting a dangerous wound. Peacock then shot the elder Chiles through the head, killing him.

Arrest of Prize Fighters.

ST. LOUIS, Sept. 22—Mike McCoole was arrested last night at his training quarters outside of the city, and Tom Allen was arrested early this morning several miles south of the city. Both were brought here and put under bonds of $1,000 each to keep the peace.

[illegible] of Brooklyn [illegible]

NEW YORK, Sept. 23—Every banking institution in Brooklyn, with a single exception, was represented at the meeting of Presidents yesterday. It was determined that in case of a run on any of the banks all the others would come to its assistance. [illegible]

NEW YORK, Sept. 23—Two million dollars' worth of bonds were bought at the Sub-Treasury office to-day. Gen. Hillhouse has declined to give the names of sellers of bonds, fearing it might bring discredit upon the banks which the facts do not warrant.

2 P. M.—Clearings of the Gold Exchange bank have been completed, and balances will be paid in as usual. The Assistant Treasurer has received $2,000,000 in greenbacks from Washington, and is ready to buy all bonds offered. Eight millions of dollars of the $10,000,000 loan certificates, issued to relieve banks, have been taken up, and it is expected the remaining $2,000,000 will be taken up to-day and in that event additional certificates will be issued.

Suffering in Shreveport.

CINCINNATI, Sept 23—General Superintendent Van Horn sends to Wm Orton, President of the Western Union Telegraph Co., N Y, the following dispatch dated Louisville Ky: "There were twenty deaths at Shreveport, La., yesterday. The disease is spreading in the suburbs, attacking acclimated persons and blacks, who are generally exempt. Superintendent L. Investigation of the St. Louis Postoffice.

ST. LOUIS, Sept 23—Special Agent Wilson, of the Postoffice Department, has been here several days, investigating matters in the postoffice relating to the alleged assessment of clerks by Postmaster Filley for political and other purposes. The result of the investigation is not known, nor will it be until Wilson makes his report to the Department at Washington, whither he has gone.

One Result of the Panic.

PATERSON N J Sept 23—In consequence of the depression of the new railroad securities an order for locomotives for three months ahead at Rogers locomotive works in this city has been canceled and five hundred and eighty workmen discharged to-day. It is feared that five hundred more may be discharged from the same works, and several hundreds from Danforth and Grant works.

It has been decided to send $2,000,000 from the National Treasury here to assist Treasurer Hillhouse at New York to-night, to enable him to buy all bonds that may be offered. The President feels encouraged at the news to-day and will be guided by circumstances as to whether he will leave to-night.

CIRCUIT COURT FOR CLACKAMAS COUNTY.

OREGON CITY, Sep 23, 1873

TO THE EDITOR OF THE OREGONIAN:

Circuit Court was opened in this city yesterday morning by Judge Upton. Among the members of the legal profession present, I noticed Judge Shattuck, Judge Strong, G H Durham, Prosecuting Attorney and Messrs Dolph and Catlin, of your city together with Messrs Johnson, McCown, Huelat, Warren and Barin, of Oregon City. There seems to be but small prospect for business ahead, as the docket is very light.

The Grand Jury have not as yet had time to return any bills. The lawyers wait with hungry anxiety still hopeful that the Grand Jury, with the assistance of the Prosecuting Attorney, may succeed in giving them a little more business, but Clackamas county is evidently too much absorbed in the question as to which will be the bitterest pill to swallow next month, Nesmith with his blackguardism, or Hi Smith with the odor of the late Albany "perturbations" clinging to him, to quarrel much.

The following is a synopsis of the cases disposed of up to noon to-day—Monday, 22d.

Oregon Central Railroad Company vs A E Waite and J R Ralston, executors, and Elvira Harvey, executrix of the estate of Daniel Harvey, deceased; case continued until second regular term of this Court, after the present term, by agreement.

Frank Schlutt vs William Kapp and G S Gumbener; decree for plaintiff.

Wm Mullins and C H Fairchild vs Holmes Hensley and Holmes; petition to set aside sheriff's sale, decree for plaintiff that it be set aside.

John C Trullinger vs J W Caine, case dismissed without prejudice, at cost of plaintiff.

Thomas Charman vs Elmer E Charman, Leonard T Charman and Mary M Charman, E D Shattuck appointed guardian *ad litem* for the minors, Elmer E and Leonard T Charman.

Charman & Warner vs Samuel Vance, motion for leave to issue execution for $110, motion allowed.

TUESDAY, Sept 23, 1873

Peter Paquet vs Abel Mattoon, Nicholas Wells and Joel Dickson, suit to recover money; judgment for pl'ff by default.

Arthur Warner vs William Singer; demurrer to answer sustained by the Court, and defendant given until to morrow morning to file amended answer.

V O Harding vs Wm and Jane Singer, it appeared that this suit had been settled by agreement, and it was orally dismissed.

THE TERRITORIES.

The Pendleton and Walla Walla Express is a remunerative enterprise.

Wm Bailey who had his arm badly injured a few weeks since by the accidental discharge of a rifle down on the Chehalis, is doing finely.

Mr Geo W Boody, of Monticello, at present County School Superintendent of Cowlitz county has been appointed Deputy Assessor of that county.

Father Richardson the Roman Catholic pastor of a church at Cowlitz Prairie has made arrangements to have a church immediately erected in Kalama.

The articles of incorporation of the Seattle Railroad Company have been amended so as to partially comply with the recommendations embraced in their report to the Walla Walla Committee.

At the last meeting of the City Council of Kalama a levy of nine mills on the dollar was ordered upon personal and real property within the city based on the county assessment for the year 1873.

Last week trout were a drug in the Kalama market. Indians, boys and everybody else disposed of single hanging strings of them from numerous creeks connected with Lewis and Cowlitz rivers and out of these streams also. Six bits a dozen was the rate asked by the Indians.

On Wednesday of last week, contracts for supplying the military at Walla Walla with supplies were awarded as follows: Hay $[illegible] per ton, [illegible] wood per cord $[illegible] straw per ton [illegible] The contracts were awarded to Messrs [illegible] [illegible]

The Walla Walla [illegible] says [illegible]

Dr [illegible] of Olympia [illegible] succeeded in killing a panther which measured some eight feet from tip of nose to end of tail. He was [illegible] The Doctor's first shot gave the brute a mortal wound in the head and the second put an end to his career. His head and skin were carefully preserved and will be taken away as a valuable trophy.

OREGON.

The Union county Teachers' Institute is in session at La Grande.

Five men and a woman are under bonds in Umatilla county to appear at Court.

Miles M Miller has resigned the position of local editor on the *Daily Statesman*. His successor is not named.

Robert Young whose parents reside on the river above Oro Dell some days since fell from a tree and broke his thigh.

Mr M Sterling, of La Grande, was severely kicked by a horse last week two ribs were broken but he is luckily now doing well.

Dallas had her regular fight last Sunday. A man named Cage got all the fighting he will want this fall. He was badly hurt but not killed and was brought to Salem for repairs.

The United Brethren have been holding a campmeeting for some days past at Price's Hill, near Oakland. The meeting is reported by our correspondent to be attended with success.

Mr Robinson, connected with the Land Office at Washington, is on a tour of inspection of the various government land offices on the Pacific coast. He went through the La Grande office last week.

On French Prairie, near St. Paul, a farmer by the name of Smith has this year raised from eight and one-fourth acres of land the enormous amount of 950 bushels of oats. Who can beat it?

The Union county Agricultural Society offer a premium of $100 each for the best running and trotting horses, and only $6 for the best span of draft horses. That's what we call sacrificing utility to ornament.

The La Grande *Sentinel* says: "We hear of lots of horses being trained for the coming Union county Fair. A grand display of products will be made—and a display that cannot be excelled by the great Wallamet at the State Fair."

The President of the Washington County Agricultural Society Mr Robert Imbrie, informs us that more stands and lots have been rented during the last week than any former year and that a large force of men is now employed in repairing the Society's grounds.

The *Statesman* says the State Board of Equalization adjourned Saturday to meet Monday, but it didn't aggregate worth a cent. Mr. Alexander, we learn is detained at home by sickness in his family, and Gov. Curry failed to put in an appearance. Consequently Col. C[illegible] was like the last rose of summer, "left blooming alone."

In accordance with law a second apportionment of the school funds of Clatsop county for the year 1873 was made September 15th. At that date there was deposited in the County Treasury for school purposes: From county tax $503 93, from fines, and effects of deceased persons, $366 55, from State school fund (coin) $189 85, from State fund (currency) $77.

Mr. J. Beanblern, of Salem, rented last spring two and a half acres of ground situated in Pudding river bottom, and on the 15th of April, seeded the tract to onions. He has just gathered the crop and sold it, with the following result. Cost of seed and labor, seeding, tending, harvesting, and hauling to market, $50—yield of two and a half acres, 2,000 bushels. Average price per bushel, 85 cents. Total value of crop, $1,700 or at the rate of $750 per acre, the net profit being $725.

Some Chinamen put a blast of giant powder in the river near Pendleton to kill fish, and other Chinamen assisted in picking up the fish. A son of Justice of the Peace Moore also assisted in picking them up. The Justice for two days waited for a prosecuting witness, at last his boy turned what is called State's evidence. The Sheriff arrested thirteen of the Chinamen but the boy could not identify any of them. Six were convicted, laid in prison twenty-four hours, paid $30 and were discharged. The Chinamen talk of complaining to the District Attorney about the alleged false imprisonment.

Our correspondent at Baker City, under date of September 19th, says: "Our weather is delightful, and the mechanics here are busy. The fall trade is starting in as good as ever before. Mr O H P McCord one of our old citizens, recently returned from Chicago with a 30-horse power steam portable sawmill, capable of sawing 10,000 feet of lumber in 12 hours, which he has located at Pocahontas, on Marble Creek, and now our citizens will be enabled to procure lumber any time of the year, whereas, heretofore, the ice king has laid an embargo upon our lumber supplies. J. W. Virtue's new banking office will soon be finished and ready for occupation. The Virtue mine and mill, under the careful management of Mr D H Jackson, is paying, and your correspondent knows that no man has ever managed this mine with the ability of Mr Jackson. E M White and Captain Myrick are doing well with the Dolly Varden gold lode near Gem. Mr Jeff Carter is here looking after old business and anything that may turn up in the way of mines."

RAILWAY SPEED.—The London *Engineer* states that the highest railway speeds in the world are attained in England and that the highest of all is reached on the Great Western Railroad—the speed on the latter be given roundly as fifty miles an hour. Instances are given however of sixty five and seventy miles an hour, and the *Engineer* believes that it would be possible to lay permanent way so well, and to maintain it in such excellent order, that trains might travel on it with perfect safety at one hundred miles an hour—indeed miles upon miles of such tracks are now to be found on most of the great main lines, but nowhere can one hundred consecutive miles of permanent way in perfection be found and as a chain is no stronger than its weakest link so a few hundred yards of bad track would spoil for the purpose of traveling at one hundred miles an hour a whole line. The really important question argues the *Engineer* is given the line and the cars fit for it what shall the engine be like and is it possible to construct an engine at all which with a moderately heavy train will attain and maintain a velocity of one hundred miles an hour on a line with no grade heavier than say one in three hundred. After a thorough examination of the question in all its bearings the *Engineer's* figures prove that it is absolutely impossible to obtain a speed of one hundred miles an hour on railway if the resistance is anything like one hundred and twenty pounds per ton.

CONCERNING BOLTERS

"Every man every member of the Republican party has a right first of all to his own conscience." Those were the brave words of Rev James Freeman Clarke when in the Massachusetts Republican Convention he was confronted by the same question which to-day perplexes many honest Republicans in Oregon. It is our platform and we are prepared to stand on it and fight for it at all times and under all circumstances. The right to act in politics as in all religious or secular affairs according to the dictates of conscience is the natural and inalienable right of every citizen. Deprive him of it and you have a mere machine useful only when operated by the master hand of the politician. We maintain the privilege of every American citizen to pass in judgment upon the soundness of men and principles on the hustings and at the polls without being stigmatized under the epithets of "bolter" and "disorganizer." Republicanism is a principle, the Republican party, so-called, is an agency. While the agency continues trustworthy it should receive the support of every good man. When it gets into the hands of bad and designing men it is the right and duty of all good citizens to unite in rescuing it from obloquy. The fearless sentiment with which we introduce this article is only one of ten thousand expressions to which honesty and virtue has given utterance in the Republican conventions held during the present year. It rescued [illegible] from the domination of rings, [illegible] the salvation of Massachusetts in that contest with Federal patronage and corruption in high places, and it is [illegible] yet to sweep the United States from the Atlantic to the Pacific wherever [illegible] may attempt to rule over the [illegible]. This doctrine of liberty of conscience is fatal to rings and cliques. They understand this, and hence the squirming of the *Bulletin* whenever the notes of [illegible] indignation at its dishonorable [illegible] of the party break upon its ear.

REPEAL OF THE SALARY BILL

It is quite probable that one of the first [illegible] which will engage the earnest [illegible] of the Forty-third Congress will be a bill for the repeal of the act by which [illegible] of the average Congressman [illegible] to $7,500 a year. During [illegible] no less than a dozen [illegible] conventions have had something to [illegible] this matter, and in every instance [illegible] has been one of disapproval. It is somewhat difficult in analyzing [illegible] to determine whether [illegible] originates with and [illegible] to the retroactive aspect of the [illegible], in some States demands [illegible] of the obnoxious measure [illegible], but it is also a fact that [illegible] of indignation seem to be [illegible] especially against that [illegible] which revealed such a woful lack [illegible] and delicate sensitiveness to [illegible] in the body that enacted it. In [illegible] representatives have been called to pledge themselves to labor [illegible] of the act, while in others the [illegible] has been required by both [illegible] candidates for election to the [illegible]. We remember that in [illegible] Congress had passed a bill in[illegible] compensation of Congressmen, Clay met and was well-nigh [illegible] by a wave of popular indignation [illegible] as strong as this of to-day. [illegible] the statesman's fullest powers [illegible] that even after he had pledged [illegible] to work and vote for a repeal [illegible] was repealed and for forty years [illegible] the model of Clay served their [illegible] for [illegible] dollars a day, esteeming [illegible] to sit in the National legislature. [illegible] and manners have changed for the worse. The Forty third Congress will confer a great sanitary blessing [illegible] American people by burying the [illegible] of the Salary Bill on or about the first day of December.

ILLINOIS RAILROAD TARIFF

We have received from the office of the [illegible] the tabulated classification of freight adopted by the Railway [illegible] Commissioners of Illinois [illegible] with a tariff of rates for the Toledo, Wabash and Western Railroad and [illegible] branches. In this report all [illegible] for transportation are classified in [illegible] groups. It presents a schedule of rates for one hundred pounds per [illegible] for each class from one mile up to [illegible] and forty-seven miles. Then [illegible] a tabular statement of rates by [illegible] load for each class and for a number of special articles like grain flour, [illegible], lumber, etc. The schedule rests [illegible] upon a pro rata basis giving a [illegible] rate for every additional mile. The tariff fixes the rate on a hundred [illegible] of grain for one mile at 8 cents, [illegible] two miles, 8.20 for ten miles 9.38 [illegible] twenty miles, 10.40, for thirty miles [illegible].50; and for every additional ten miles [illegible] cent up to one hundred and fifty [illegible], above which the rate of increase for [illegible] ten miles is three fourths of a cent. [illegible] the car load the rate is lower. Thus, [illegible] one mile the rate per hundred pounds [illegible] wheat is 4.68 cents for ten miles [illegible] fifty miles, 9.41 for a hundred miles [illegible].96. The rate for other grain is a trifle lower. The rate for a car load of corn carried fifty miles, is $17.16; for a hundred miles it is $21.56. It is thought quite probable that the Courts will adopt these rates as a basis in all railroad litigation.

Later developments in the Rodman defalcation go to show that for several years past Brooklyn has been systematically plundered by a band of thieves just as thoroughly organized as was the Tammany ring of N Y City. Rodman's confession as it was made to District Attorney Britton several days ago [illegible] his superior in office Treasurer Sprague in the thievings. The ring was made up of City Treasurer Sprague his deputy Rodman and the late Ethelbert S Mills who was drowned a short time since. The headquarters of these treasury robbers was the bank of the Brooklyn Trust Company of which Mills was President. A large part of the city funds was placed on deposit in this bank. It was [illegible] between these three men that they [illegible] the city funds so far as practicable. Then after paying into the Treasury three per cent (which was due it on the deposits) they divided the balance of profits on the loans between them. The speculations in which they engaged proved disastrous and several hundred thousands of dollars were sunk. These losses were being made good from the private fortunes of the ring when the death of Mills and the consequent investigation into the affairs of the Trust Company precipitated the catastrophe. Sprague then had paid $100,000 up to the time of Mills' death. At the time of Mills' death Rodman told Sprague that they were standing on a volcano which might destroy them at any moment. Sprague offered him $50,000 to run away and bear the burden of the defalcation but [illegible] would not consent [illegible]. Both rogues are now in jail.

Ex-Senator Henry S Foote has not forgotten his ancient art of self-defense. In a style peculiarly his own he replies to an accusation by the Corvallis *Gazette and Sentinel* that he was supporting the Administration in the hope that he might get an office. I notify the editor of the *Gazette and Sentinel* and the whole tribe of canine growlers to which he belongs that I am not to be deterred from maintaining principles and defending the peace and honor of the Republic against brawling factionists and traitors by any such unmanly and scurrilous attack as that which I am now noticing. Neither has Senator Foote forgotten the character of the quondam President of the Southern Confederacy. Davis gets this treatment:

It is equally untrue that I have as this wretched scribbler charges "villified those whom he alludes to as 'our leaders'" unless he is as I suspect the abject and groveling slave of Jeff Davis and a few other such contemptible individuals as he is. All those whom I have been exposing to deserved scorn and infamy I denounced more strongly in the Confederate Congress than I have ever done since and I boldly challenge them and their starveling satellites to disprove a single allegation I have ever preferred against them.

We were caught yesterday in the predicament of publishing the obituary of a live paper—the Salem *Statesman*. There seems to have been a little misunderstanding between the editor Mr C P Crandall, and the mechanical department. This we learn was amicably adjusted the necessary funds being furnished by 6 o'clock on Monday evening. The *Statesman* appeared as usual yesterday.

Isn't it about time that address of Hi Smith to the people of Oregon was out? Mitchell and Scott have been engaged on it four days, and have had the assistance of other members of the ring on those points which required the greatest skill. It is to have double meaning when speaking of the bigamy resolution. Hurry it up.

A PERSONAL EXPLANATION

SALEM Sept. 22 1873

TO THE EDITOR OF THE OREGONIAN

Upon a return from a trip to the mountains for the benefit of my health my attention was called to a letter from your Salem correspondent "47" in your issue of the 17th relative to certain transactions at the State Penitentiary which does me a great injustice. Believing that you are willing at all times to do what is right, I wish to make a statement of the matter referred to. The party whose discharge as guard was ordered, came to my room where I was lying upon a sickbed, and during a conversation relative thereto, made use of threatening and abusive language. I ordered him from the room, and failing to go I drove him out and down the stairs.

I never had a rifle or any other kind of fire arm in my hand, this portion of your correspondent's story was either manufactured by his "reliable gentleman" or himself and is entirely devoid of truth. The other guard was discharged for *cause* and not for sympathy with the party referred to above and the third being a brother of No. 2, discharged himself.

In verification of this I refer you to the statement of Mr Holsclaw the Warden annexed and also to any of the officers of the Prison who were present at the time.

By giving the above a place in your paper, you will much oblige,

Yours, respectfully
W H WATKINDS
Supt Oregon State Penitentiary

SALEM Sept. 22 1873

In connection with the above, with your permission I will give an unvarnished tale as I saw and heard it. The guard that was discharged received his pay in early morning and then went to look up the officer that reported him as having failed in doing his duty. After returning from the search he said he must see the Superintendent and have it cleared up would not lay under the lie etc. The Superintendent had been confined to his bed for four or five days and was scarcely able to walk at the time this man went to his room to settle his troubles.

The story about the Henry rifle is false in every particular. The rifles are all in use except two or three and they are kept in the armory case under lock and key. Guard No 2 was not peremptorily discharged but only conditionally so. His brother quit on his own account. B F HOLSCLAW, Warden

"OCCIDENT"

Everyone was now on the tiptoe of expectation as it had been reported that Occident would not go for the plate but would be speeded for the gratification of the immense concourse of spectators. Great excitement and enthusiastic cheering resulted when the Judges announced from the stand that the celebrated horse was entered and would go for the $2000 plate for the best trotting time on record in California. After taking a preliminary spin around the track during which he elicited the admiration of every one the noble horse was sponged off and allowed time to cool a little and then an attempt was made to get him started. Brown Dick, a running horse ran by his side to urge him to his best speed. Occident seemed a little shy of the crowd and broke badly in the first and second attempts to get him off but was beautifully handled by George Tennant who has won fame for himself by his excellent driving through it the race. On the third attempt he crossed the score trotting splendidly. Brown Dick going after him at his utmost speed eight or nine lengths behind. His jockey did his level best to catch Occident but failed. When the bell tapped and it was known that [illegible] her capability to produce the best trotting horse in the world California's horse was now at stake ten thousand pair of eyes watched eagerly every stride of their favorite. For the first quarter he did not appear to be exerting himself to any extent passing the quarter pole in [illegible] seconds and it seemed hardly possible he could do the mile in 2.20 but going on the half he gradually increased his speed passing the half mile pole in 1.0[illegible] making the second quarter in [illegible] seconds less than the first. [illegible] Occident appeared in front of the Judges stand and [illegible] breathless while he announced that Occident had won the $2000 plate. Time [illegible] beating Goldsmith Maid's best California time by one-quarter of a second.

This was the signal for a burst of the wildest excitement. Ladies on the stand clapped their hands and waved their handkerchiefs, men shouted and hurrahed and threw their hats into the air and the cheering was loud and long continued. The office of the Western Union Telegraph Company was immediately rushed for and scores of messages were dispatched to all portions of the State and to New York. Governor Stanford immediately presented his valuable prize to the State Agricultural Society to be held by them and given to the horse which at any future time beat Occident's time of this day.

OCCIDENT AGAIN

Between the second and third heats of the pacing race Occident trotted another mile [illegible] making the quarter in [illegible] the half in [illegible] [illegible] better [illegible] the fastest time ever recorded in the world [illegible] was pressing forward too closely and broke badly nearly running into the fence [illegible] finished the mile in [illegible].—*S F Bulletin* Sept 18th.

JOHN STUART MILL'S LAST ESSAY

The London *Examiner* for July 19th contains the last article written by Mr Mill. Its subject is "The Right of Property in Land." Mr Mill thus vindicates the principle of unearned increase:

If the tenant had added anything to the value of the land over and above the duration of his tenancy the landlord should be bound to purchase the improvement whether permanent or temporary at its full value. If the nation at large by their successful exertions to increase the wealth of the country have enhanced the value of the land independent of anything done by the landlord or tenant that increase of value should belong to the nation. That it should do so is not only consistent with the principles on which landed property confessedly depends for its jurisdiction but is a consequence of those very principles. Now, the labors of the nation at large do add daily and yearly to the value of the land whether the landlord plays the part of an improver or not. The growth of towns the extension of manufactures the increase of population consequent on increased employment create a constantly increasing demand for land both for the habitations of the people and for the supply of food and the materials of clothing. They also create a constantly increasing demand for coal iron and all the other products of mining industry. By this increase of demand the landed proprietors largely profit without in any way contributing to it. The income from rural lands has a constant tendency to increase that from building lands still more and with this increase of their incomes the owners of the land have nothing to do except to receive it. The Land Tenure Reform Association claim this increase for those who are its real authors. They do not propose to deprive the landlords of their present rents nor of anything which they may hereafter add to those rents by their own improvements. The future unearned increase is what the association seeks to withdraw from them and to retain for those to whose labors and sacrifices from generation to generation, it will really be due.

The means by which it is proposed to accomplish this is

SPECIAL TAXATION

Over and above the fair share of the landlords in the general taxation of the public they may justly be required to pay hereafter a special tax within the limits of the increase which may accrue to the present income from causes independent of themselves. It should be understood also that no intention is entertained of paring down the increment of rent to the utmost farthing. We assert in principle the right of taking it all in practice we have no desire to insist upon the extreme right at any risk of going beyond it. No doubt the option allowed to the landlord of giving up the land at its existing value would secure him against pecuniary wrong but we should be sorry to trade upon his reluctance to give up an ancestral possession of one endeared to him by association. We would leave therefore an ample margin by the way of insurance against mistakes in the institution. We would not insist upon taking the last penny of the unearned increase. But we maintain that within that limit of taxation on the land in addition to the landlord's share of all other taxes may justly be and ought to be imposed.

ANGORA GOATS.—Several splendid lots of the mohair animals are exhibited. Experienced herders declare that the rearing of Angora goats is destined to become speedily the most extensive and profitable herding enterprise on this coast. The goats far surpass the sheep as a hardy animal standing the dry season better, for the reason that they feed and fatten on almost every species of vegetation including poison oak and buckeye, (horse chestnut) the latter being invariably fatal to sheep. Those who have herded sheep and goats conjointly state that where a large percentage of the sheep have been lost through a sparsity of feed the goats have survived and flourished. The mohair is worth double the price of the best wool and breeders look for a steady market at advanced rates when the enterprise shall have attained great magnitude. At the present time the comparatively small quantity of mohair sheared in the State does not warrant the establishment of independent factories and the cost of changing machinery from running wool to mohair to work off small lots has kept the price low and unsettled. From this fact also considerable of the [illegible] hair raised in the State has been shipped to Europe. Breeders look for a scale of [illegible] per pound and upward but this year [illegible] cents per pound has been about the price for grade fleeces.—*Sacramento Cor S F Bulletin.*

CITY.

PREMIUMS OFFERED.—A few days ago the Secretary of the Base Ball Convention of Oregon wrote a letter to the Board of Managers of the State Agricultural Society asking a question as to the amount which the Board would be willing to award to the winning club at the coming tournament. Yesterday the Secretary received a letter from I M Waite Secretary of the Society in response to his inquiries. The letter stated that the Board had concluded to offer as first premium $40 and as second $25. This announcement as may well be supposed not only surprised the Secretary but greatly disappointed him. It would certainly appear that the Board had hardly considered the matter in its proper light or else they would have offered more liberal amounts. Should they regard it purely from a business stand point they ought to be induced to offer more liberal premiums. The sum total of both premiums offered by the Board amounts to so certainly a paltry sum compared with the benefits the Society would derive from the tournament. There are six clubs that have signified their determination to be present and participate at the tournament. These clubs are Olympia Pioneer College, Forest City Monmouth and Pacifics. There are 54 members in these clubs. Two dollars a head as admission fee will alone make the sum of $108. Ten dollars will be charged each club that enters to compete for the premium. This will be $60 additional or $168 for admission and entry fees. Then it will be no exaggeration to state that the tournament will draw at least 1,000 persons to the fair who would otherwise not attend. Each club hailing from different sections of the State and Washington Territory would bring a large number of personal friends and these who would feel a local pride in the success of their favorite club. These persons would certainly be the means of contributing no inconsiderable sum of money to the Treasury of the Agricultural Society. We venture the hope that the Board may alter their determination and give the matter a more favorable consideration. Unless more liberal premiums are offered, we feel certain that none of the clubs will attend with the intention of participating in the tournament. One hundred dollars for the first premium and fifty for the second would we feel certain give satisfaction to all the clubs, and we hope that the Board will consent to do so.

RESIGNED.—Captain Alex Campbell of the new military organization City Rifles recently tendered his resignation. His resignation has been reluctantly accepted both by the members of the Rifles and Brigadier General M V Brown. An order has been issued by Gen. Brown instructing the members to hold a special election to fill the vacancy created by the resignation of Capt. Campbell on Friday evening, 26th inst. It is a matter of regret that Capt Cambell has concluded to retire from the company which he was mainly instrumental in organizing. Capt Campbell is an old member of the Washington Guard having belonged to it for about eight years and served with great acceptance as First Lieutenant several terms. It is to be hoped that Capt Campbell's successor will prove as popular and efficient a member of the new organization as he has been. We learn that the City Rifles are in a very prosperous condition at present.

WHISTLING HIM DOWN.—One day this week two men were putting shingles on a woodshed adjoining a recitation room in one of our city school buildings. In addition to the constant hammering which greatly annoyed the teacher and pupils, one of the men kept up a continued whistling which was exceedingly excruciating to the nerves of the Professor, who at last hit upon a somewhat novel plan to stop the nuisance. Asking the class of boys if any of them could whistle, several of them of course raised their hands. Stopping the recitation, the teacher singled out three or four of those whose organs seemed best adapted to the business, and sent them to the window where they set up such an unusual musical concert as completely astonished the workmen and put them entirely out of tune. Not another note disturbed the serenity of the teacher's brow or interrupted the recitation in that room during the day.

FAILED TO PROSECUTE.—Ah Bock the celestial who was arrested on Monday evening, charged with having fired off a pistol at a group of Chinamen, was arraigned yesterday in the Police Court. None of his prosecutors appeared against him and the defendant was as a matter of course, released. When the arrest was made, there was a crowd of Chinamen who flocked to the jail, and were swift witnesses against the peccant Ah Bock. However, yesterday morning, these same fellows who were so clamorous to have Ah Bock "put through" met at the jail and held a long confab among themselves. At its conclusion not one of them were willing to appear as a witness in the case. These Chinamen probably beat the world to compromise cases in many instances defeating the ends of justice and allowing the guilty to go unwhipped of justice.

TOTAL VALUATION.—Mr W D Pettinger, Assessor for Washington county has just completed the assessment rolls for that county and forwarded one copy to the State Board of Equalization. From the rolls we learn that the following is the total valuation of property:

		VALUE
Total number of acres assessed	18,391	$ 13 [illegible]
Town property		13 000
Merchandise		54 095
Money notes and accounts		100 15
Number of horses	216	116 895
Number of cattle	019	8[illegible] 475
Number of sheep	56	19 750
Number of swine	3 969	7 130
Gross valuation of all property		2 136,465
Indebtedness within the State		369 000
Exempt.		208 920
Number of polls		[illegible]0
Net valuation		$1 617 885

EXTRA BOAT.—The steamer *Yakima* is now running as an extra boat between Celilo and Wallula. This is to accommodate wheat shippers. The immense quantities of grain which are coming down the river or awaiting shipment at the wharves render it wholly impossible for the regular freight and passenger packet to answer the demands of trade. To accommodate the present rush of wheat the *Yakima* makes trips tri weekly between these points and the regular boat semi weekly. Considerable trouble is experienced by the farmers and shippers in transporting their grain from Walla Walla to Wallula. Wheat, however is pouring in very rapidly. The Dalles boat on Monday evening brought down 2 400 sacks of the cereal.

RUNNING LINES.—The City Surveyor and his assistants were engaged yesterday in running a line along Front street between Washington and Stark starting from the base of grades at Parrish's building. The object of the survey was to determine where the Stark street sewer will be laid. When this is ascertained stakes will be driven along Stark street to indicate where the line of excavation is to be pursued. We learn that it is the intention of the contractor to tunnel under Front street and thus obviate the necessity of tearing up the Nicholson pavement. At Front street the tile will be 14 feet below the surface and the mouth of the sewer will come to the surface about two thirds the way down the pontoon.

HIDEOUS ASPECT.—At the show window of H Woodard can be seen the skeleton of some hideous looking [illegible] [illegible] an imperfect union of the human [illegible] The head, neck, a portion of [illegible] arms look marvelously like those of [illegible] being while all the remainder [illegible] resembles that of a fish having scales [illegible] It is a very repulsive object [illegible] This creature [illegible] belonged to a species [illegible] known as the Mermaid and was brought [illegible] Japan. Those [illegible] curious [illegible] should call and examine for themselves.

RELEASED.—Lee Quong [illegible] of the use of his lights and who appeared [illegible] afflicted with a bronze mark [illegible] was arraigned yesterday in the Police Court. The charge as usual was theft. This time it was the larceny of carpenter's tools. By some of the devious windings of the law and a technical flaw in the evidence, Lee Quong was discharged. He was gently admonished by the Court to "depart in peace and sin no more." John departed but it is decidedly [illegible] about his not sinning any more.

FOR THE SOUND.—The steamer *Gussie Telfair* left last evening for Sound ports with a [illegible] cargo.

MUSICAL CONCERT.—To morrow evening, a grand musical literary and social entertainment will be given at the First Congregational Church. The musical portion of the entertainment will consist of vocal and instrumental selections which will be rendered by some of the most talented amateurs of the city. At the conclusion of the concert the table will be spread and refreshments of all kinds served up to the guests.

TO MAKE A TEST.—Prof F H Hopkins arrived here last evening from Astoria. He proposes to make a thorough practical test of a new method of salting, [illegible] found in large quantities [illegible] at Astoria. From a limited and partial test Prof Hopkins some claims that he can produce a superior article to even the [illegible] [illegible] cement.

CATCH OF SALMON.—The catch of salmon for the season of 1873 on the Columbia was 100,000 cases. Each case weighs 48 pounds [illegible] one and two pound tins. Besides this amount there were 4,500 barrels of salt salmon. This is certainly a good showing for this important branch of industry.

NEW TUG.—The new steam tug [illegible] which was built at [illegible] at Astoria will leave for Portland this week to receive the boiler and machinery. Mr John Douglass has been engaged as engineer. Mr James Fox has the contract of putting in the engines and boiler.

SILVER CUPS.—Several elegantly chased silver cups manufactured in San Francisco arrived on the last steamer. These cups are in the hands of S G Reed Esq and will be delivered to the several winners of premiums at the Washington County Fair.

DUMPING STONES.—A barge loaded with stones was moored yesterday afternoon at the foot of Stark street. The stones were dumped in the river at the end of the pontoon and designed as a roadway during the lowest stage of water.

EMMET GUARD MEETING.—A meeting will be held this evening by the members of this military organization. The principal object of the meeting will be to consider the invitation extended to the Company to attend the boat race which will come off down the river on Thursday.

FILLING UP.—A dirt train is again running on the westside road between the Summit and the city. The space between the Clarendon Hotel and the Steamship Company's office is being filled up to the established grade.

COUNTY COMMITTEE.—A meeting of the Democratic County Committee has been called by the Chairman, A B Hallock. This meeting will be held in the Police Court building this evening at 7 30 o clock.

NEW OPENING.—Messrs Hurgren & Shindler have opened at the corner of Front and Alder streets. A full stock of furniture etc on hand—more being added daily.

LOCAL BREVITIES.

The Modoc braves have but ten days longer to live and then—they are off to the happy hunting grounds.

The Utica *Observer* of the 11th inst contains the following reference to the above sale.

The sale of Hon Samuel Campbell's unequalled herd of thoroughbred short horn cattle which took place at New York Mills two miles from Utica yesterday afternoon will attract attention and provoke discussion throughout the world. It was the most important sale of the kind ever held. It drew hither a number of English stock breeders and numerous representatives from Kentucky Pennsylvania and other States and also from the Dominion of Canada. The prices realized were exceptionally high. The sum of $40 600 was paid for one cow—the eighth Duchess of Geneva—by Mr P Davis of Gloucestershire England. The calf of this cow was sold to Mr Alexander of Kentucky for $27 000. These figures seem fabulous but they were paid by men who counted the cost before they made the bids. In England it is impossible to secure any thoroughbred short horns not because there are none of the pure blood Duchess breed in the kingdom—as a foolish contemporary suggests—but because the owners will not part with them for love or money. There has not been a public sale of short horns in England for twenty years there is not likely to be such a sale for an hundred years to come. *The London Field* the representative journal of the stock raisers in Great Britain attempted to dissuade the English purchasers from attending the Campbell sale arguing that cattle of equal excellence could be seen in England but it is one thing to see them and another to own them and several enterprising English men who appreciated the difference were here yesterday to make purchases.

Among the various breeds of men none other equals the Scotch American in the persistency with which he sets about the accomplishment of a given object. It is many years now since Mr Campbell—a type of that breed—conceived the idea of collecting a herd of pure blood short horns. He went about it systematically. It was not the business of his life but rather a relaxation from business. While he was engaged in it he was making himself famous as a manufacturer of cottons. He bought his herd at prices which seemed enormously high to his neighbors and friends but which appear low when compared to the munificent sums realized yesterday. We believe $12,000 was the highest price which Mr Campbell paid for any single cow in his herd. He expended altogether some where in the neighborhood of $[illegible]0,000. The aggregate receipts of yesterday's sale were in excess of $380,000. It will be seen that the profit constitutes a handsome return.

A Good Thing Duly Appreciated

Not to treat our duty [illegible] backward and this maxim is invariably in medicine as in politics. The advent of Hostetter's Stomach Bitters twenty years ago produced a revolution in the treatment of a large class of ailments and that revolution has ever since been in the full tide of successful experiment. If that tide has borne the proprietor of the celebrated vegetable specific on to fortune it has also borne thousands of human beings who were languishing under the effects of disease weak and hopeless out of the depths of despondency into the paradise of health and cheerfulness. It is no exaggeration to say that to the vigor the regularity of habit of body the good appetite and perfect digestion acquired under the operation of this unequalled tonic and corrective multitudes of people in every walk of life who had been vainly physicked in the usual way owe the blessing of renewed health and the prospect of prolong d life.

COLEMAN'S EUCALYPTUS

Dr J B. Coleman's Compound Extract of Eucalyptus is a preparation combining all the valuable medical qualities of the Eucalyptus which is cultivated in nearly every California garden for its medical utility having become the household remedy for all diseases of the KIDNEYS BLADDER and URINARY CANAL and SEMINAL WEAKNESS. It seems to have a direct affinity for the GENITO-URINARY ORGANS and their surroundings and cures them by its alterative healing and balsamic properties more effectually than any other known remedy.

It is an invaluable remedy for all diseases of the mucous and serous membranes, such as BRONCHITIS, HACKING COUGH NAUSEA DURING PREGNANCY DYSPEPSIA LEUCORRHŒA etc.

This preparation is the result of Dr Coleman's experiments with the medicinal properties of the tree in the U S Marine Hospital in San Francisco in 1871 and 1872 where he had unusual facilities for testing the various methods of preparing the remedy and its uses. It can be relied upon as certain to give the [illegible] [illegible] results and hundreds of testimonials of its efficacy can be seen at his office 405 Kearney street, San Francisco.

COLEMAN'S DOUBLE EXTRACT OF EUCALYPTUS is a powerful yet harmless, [illegible] and is a special preparation for the treatment of the malarious fevers of our interior valleys and is warranted to cure any case of FEVER AND AGUE treated with it according to directions while the baneful results of the usual Quinine and arsenical remedies of these diseases are entirely avoided.

THE POLARIS.

DETAILS OF THE SUFFERINGS AND RESCUE OF THE CREW

NEW YORK, September 19th. — A *Tribune* cable special from Dundee Scotland September 19th, gives the following details of the experiences of the *Polaris* expedition:

The whaling steamer *Arctic*, Captain Adams, arrived at this port from Davis' Straits having on board the men of the *Polaris* expedition who were picked up by the whaler *Ravenscraig* on the 20th of July. The men are all well and show no marks of emaciation such as might have been expected after their terrible experiences. The following narrative of incidents that occurred after the separation of the crew is gathered from conversation with several of the party.

The *Polaris* had been leaking badly before the 15th of October 1872 and her situation [illegible] became so alarming that it was [illegible] advisable to make preparations to abandon her. The determination to leave the ship was arrived at on the 15th of October at which time [illegible] were in latitude 79. Some of the crew remained aboard, while others landed on the [illegible], and they began to get out stores with the intention of taking everything they could need for a long sojourn in those frozen regions.

Between 10 and 12 o'clock at night while this work was proceeding a very severe gale [illegible] up, and snow began to fall heavily [illegible] strong but varied winds. Operations [illegible] continued, and after untiring efforts [illegible] were got upon the ice, and a large supply of provisions taken out. Suddenly the hawser by which the ship was made fast to the [illegible] way, one snapping and the other [illegible] from its lodgment in the ice [illegible] about midnight. The anchor [illegible] tore a large piece from the floe, with [illegible] upon it, and as the *Polaris* drove [illegible] they cried out in an agony of terror, "What are we to do?" Captain Buddington [illegible] that he could do nothing for [illegible] had boats and provisions and must [illegible] for themselves the best they could. These [illegible] Sergeant Myers and two others, [illegible] saved with the Tyson party. A few minutes [illegible] in the *Polaris* saw a boat [illegible] and manned by the three men [illegible] for the place where their companions [illegible] In a short time storm and [illegible] but every object from their view, [illegible] of the men can be imagined, [illegible] half the crew left to perish, as they [illegible] of ice and snow, the ship [illegible] until at last she brought [illegible] Cove.

[illegible] it was now gloomy enough [illegible] to be little prospect of their [illegible] the *Polaris*. She still leaked fearfully [illegible] condition Budding[illegible] of getting any further south [illegible] it was, therefore, determined to [illegible] the question was how that could [illegible] wind being favorable, an open[illegible] was finally [illegible] and the [illegible] under canvas. Everything [illegible] favored the work, but though the [illegible] only a few miles from shore it took 12 [illegible] in.

[illegible] question was how to provide [illegible] the men on shore. All the timbers [illegible] were torn out, provisions [illegible] on the ice, the coal was [illegible] anything useful was secured [illegible] were then built of heavy [illegible] to exclude the wind, and the [illegible] of [illegible] In such a home the [illegible] Some help was had [illegible] who discovered the [illegible] for a few paltry [illegible] under the ice from [illegible] gave still more valuable aid [illegible] for clothing of which the [illegible] way of their [illegible] out, and many more were [illegible] to make away on the night [illegible] plenty, and [illegible] full Esquimaux [illegible] coats, hats and boots [illegible] winter the [illegible] remarkably well. If not perfectly tight, the [illegible] sailors and [illegible] to row, and on the first day [illegible] Sonntag Bay. After [illegible] a short time to regain their [illegible] made for Hakluyt Island, where [illegible] was brought to a stand-still by [illegible] gale which blew for three days [illegible] fall of snow for all that time. [illegible] of auks, a kind of penguin [illegible] however and, [illegible] take up their guns and [illegible] at a shot, there was a plenti[illegible] of [illegible] provisions, which were [illegible] Occasionally their [illegible] badly [illegible] and it was feared [illegible] to grief, but they were among [illegible] was nothing to be done but [illegible] southward at all hazards. [illegible] many privations and encoun[illegible] from which their escape seemed [illegible] they at last through great [illegible] in [illegible] Cape Parry, a [illegible] Cape FitzClarence Rock. An [illegible] made every night. When [illegible] day was over the boats were [illegible] the floe, and everything taken [illegible] and the only hot meal of the day [illegible] The apparatus employed in [illegible] was of the most primitive order. Each [illegible] a quantity of rigging from the [illegible] a can of oil. With these a fire was [illegible] the bottom of an old iron bucket [illegible] the only thing that could be made [illegible] an apparatus. They state that the [illegible] they suffered were not serious, the [illegible] tough, laborious and monotonous, but [illegible] occasionally presented them [illegible] calculated to inspire the greatest [illegible] serious accident occurred, and on the [illegible] of June the boats reached Cape York. [illegible] Here they were again close beset. [illegible] On the 23d their troubles came to [illegible] A whaler was descried a few miles off [illegible] the whole party was at once in a turmoil [illegible] A great fear seemed to take [illegible] of them all at once that the ship [illegible] get away before they could make them[illegible] seen, and they put forth every exer[illegible] to push through the ice with the least [illegible] delay. It proved to be the *Ravenscraig* of Dundee, Capt Allen. She soon saw the [illegible] and Captain Allen sent his crew to [illegible] assistance and took on board their effects [illegible] one of their boats, the other being left behind. Captain Allen treated them they all [illegible] in the kindest and most generous manner [illegible] subsequently in order that whaling operations [illegible] not be interrupted Allen shipped some [illegible] of the crew of the *Polaris* on the *Arctic*. The [illegible] completed her season's work earlier than had been expected and, knowing the [illegible] of the *Polaris* were anxious to get home [illegible] for the *Ravenscraig* and took in [illegible] the members of the party who had been [illegible] with her except three who had previously [illegible] transferred to the *Intrepid*. These three [illegible] R. D. Bryan, astronomer and chaplain [illegible] seaman and John W. Booth [illegible] The *Intrepid* is expected home in [illegible]

The rescued sailors say that when [illegible] picked up they had bread enough [illegible] one month, but it is the general opinion [illegible] that they would not have [illegible] in reaching any settlement. Chester [illegible] who is spoken of in the highest terms [illegible] every one of his companions, has no doubt whatever that they would have got southward without any [illegible].

Captain Hall was regarded as peculiarly adapted for the great enterprise under his charge, and all lament his untimely end. As to the statement that the ship might have aided the party on the ice all agree that it was impossible after the *Polaris* broke adrift to learn the whereabouts of those left behind. Every effort was made to find them but to no avail. Captain Markham R. N., accompanying Captain Adams of the *Arctic* on his whaling voyage for the purpose of making scientific investigations in the northern regions. He left Dundee to-day and intends to be present at the British Association meeting at Bradford.

TUESDAY EVENING, September [illegible] 1873.

Gold in New York to-day 11[illegible]

Portland Legal Tenders rates [illegible] buying, 8[illegible] selling.

Wheat in Liverpool—Average California 12s [illegible] 12s 11d Club 13s [illegible] d.

That there should just now be experienced quite a pressing tendency toward closeness in our local money market is not a matter of surprise, as the demands upon the resources at this point have been even larger than were expected through arrangements had been made to meet an increased requirement during the fall months. The movement of the wheat crop has been greatly accelerated by a combination of circumstances to such an extent that the available funds for that purpose have been more rapidly exhausted than past experience had taught business men to expect. As a matter of course the deviation of this sum from the ordinary channels of trade is only temporary and it will in a large proportion soon find its way back thus restoring matters to their accustomed equilibrium.

Europe [illegible] Wheat Market.

The latest advices by mail from England denote a decided strengthening in the wheat market at the grain centers of Europe. Beerbohm's London Corn Trade Circular of the 4th instant says the crop prospects had materially altered both in France and Great Britain. The reports from several other Continental countries are also less favorable than before. In Great Britain the deficiency on the 1st of September was estimated at thirty six per cent. Supposing the deficiency to be only twenty or thirty five per cent it would follow that the required importation during the next twelve months can hardly be much less than the past year in which 12,000,000 quarters were imported. The highest estimates of the necessary importation have reached ten million quarters. All accounts are agreed as to a very large deficiency and of the necessity of an importation of at least four millions. France will be a competitor with Great Britain for some five millions quarters more than during the past season, in the course of which she effected a net exportation of upwards of a million quarters. It is at present difficult to foresee from what countries so much larger quantity can, this year, be procured. There will in all probability, be considerable from Russia. Although the crop in Germany is better than that of last year a large want remains to be satisfied in that country and the exports will be small, at least during the first part of the cereal year. The growth on the Continent having been very bad must cause high prices, by which the French country market will be more freely supplied but as there are no old stocks left, a large quantity of foreign wheat will be wanted during the next four years and the quantity hitherto secured abroad will be considerably increased. The French markets have become more quick during the last few days and prices are easier, so that there will now be a possibility of temporary [illegible] of purchases in England. The same quality of English wheat has grown as well as foreign wheat has. Regarding the yield of the harvest, nothing new can be added to the remarks of last week. In consequence of the uneasiness caused by the raise of prices, the French Government has determined to abolish her tax on grain at once.

In Germany, business in wheat is active, at rapidly rising prices, both in the Rhenish districts and in the south of Saxony. The reports from Austria and Hungary have become very gloomy, and purchases of flour and rye that have been made in Germany, are considerably below the average. The rye is very bad, indeed. Three-fourths of the potato crops are [illegible] to be lost.

The *Mark Lane Express* thinks that the Liverpool market will reach 1s a cental beyond ruling rates before the crop of 1874 is available.

Tea and Coffee Trade.

The American *Grocer* says, "The present condition of the coffee market, not only of this city and this country, but of the entire coffee producing and coffee consuming world, is such as to demand close attention. In this country, New York is the controlling coffee market. It so happens that just at this time the stocks of all kinds of coffee in first hands here amounts only to about 850 tons against a little over 13,000 tons same time last year. The same state of things exists in all the six principal coffee ports of this country, the entire stock on hand on September 1st, amounting to about 2,500 tons, against 16,000 tons same time last year. The consumption of coffee in this country during the past eight months has averaged more than 500 tons a month greater than for the same period last year, while the importations have fallen short during the same time over 9,000 tons.

New York Hop Market.

From the New York Hop market we hear that the arrivals of new are limited as yet, and it is impossible to give reliable quotations for them, brewers take a bale or two merely as samples but sales in quantity are not making as yet, buyers await for full advices concerning the amount of the German surplus. It is now clear that England as well as ourselves, will have a deficiency to supply and the question is whether Germany will be able to fill the wants of both countries. Domestic advices are generally quite unfavorable: the hops are coming down below expectations of growers in quantity, and the quality which a short time ago looked so promising is now spoken of far less favorably, mould and lice having done much injury the crop is now generally estimated a good deal below that of last year. We hear of very few transactions both buyers and sellers awaiting a more definite basis for operations. Hops of 1872 are held in New York with some confidence, but are so dull as to be nearly nominal. Older grades are firm but quiet.

Washing Wool.

We call attention to the following table showing the prices at latest dates by mail for wool in New York:

OREGON AND CALIFORNIA	
Spring clip, fine	30a36
Spring clip, medium	30a35
Spring clip low grades and burry	24a28
Fall clip A 1	30a32
Fall clip, low grades and burry	17a20
TEXAS	
Fine	30a35
Medium	28a32
Low	20a26
Inferior	17a21
Very burry	15a17
TUB WASHED WOOL	
Choice	55a60
Fair	40a52
Inferior and burry	44a48

Now we would suggest in view of the great difference in the value of washed and unwashed wools and the high rates of freight from here to the East, that a majority of all our small wool growers adopt the plan of washing their wools previous to shipment or sale. The operation of washing can be performed during or immediately after shearing by the farmer himself, assisted by such labor and appliances as he can nearly always command very cheaply with a certainty that he will receive a better return for the expense than attends his labor in many other directions. The *Rural [illegible]* earnestly advises this course and says that to derive the greatest benefit from washing, [illegible] should also be sorted into grades and each grade kept by itself to be tub washed [illegible] from washing the wool upon the sheep's back before shearing. There is however no difficulty what [illegible] the farmer doing his own grading in an entirely satisfactory manner or sufficiently so [illegible] reasonable requirement of the purchaser [illegible] that he was saving the freight on the [illegible] pounds of mere dirt [illegible] conduce to sound [illegible]

But if nothing more than a careful [illegible] the wool upon the animal is made [illegible] a gain upon the value over that which [illegible] unwashed is sufficient to pay largely the expense attending [illegible] even the most ordinary [illegible] for doing it are available.

NEW REMEDIES! NEW REMEDIES!

Dr. Gibbon's Dispensary,

623 KEARNEY STREET, NEAR COMMERCIAL, San Francisco. Established in 1854 for the treatment of Sexual and Seminal Diseases, such as Gonorrhoea, Gleet, Stricture, Syphilis in all its forms, Seminal Weakness Impotency, etc. Skin Diseases (of years standing) and Ulcerated Legs successfully treated.

DR. GIBBON has the pleasure of announcing that he has returned from visiting the principal Hospitals of Europe, and has resumed practice at his Dispensary 623 Kearney street, corner of Commercial, San Francisco where his old patients and those requiring his services may find him.

The Doctor has spared neither time nor money in seeking out new remedies and has returned with increased facilities for the alleviation of human suffering.

Horrible Diseases.

How many thousands of persons both male and female are there who are suffering out a miserable existence from the effects of secret indulgences, or from virus absorbed into the system! Look at their pallid emaciated and disfigured faces and their broken-down constitutions, disqualifying them for the happiness of marriage or the enjoyment of life. In this horrid situation thousands suffer until death closes the scene. Let parents, guardians friends, attend to those who are suffering with any of these horrible life-destroying maladies—see that they are cared for and cured before it be too late. Send them immediately to DR. GIBBON a physician who has made private diseases his especial study for years, and who is certain to cure the most inveterate case, without mercury or any injurious drugs. It is important to those who are afflicted or to those who are interested in the welfare of their friends, to be careful of the many pretended doctors who infest all cities, publishing their skill in curing all [illegible] in a few days imposing upon the public by using the names of eminent physicians from Europe and other places. Be therefore careful and make [illegible] inquiry or you may fall into the hands of [illegible] charlatans.

Seminal Weakness.

Seminal Emissions, the consequence of self-[illegible] This solitary vice or depraved sexual indulgence, is practiced by the youth of both sexes to an [illegible] unlimited extent, producing with unerring certainty, the following train of morbid symptoms, [illegible] combatted by scientific medical measures, viz. sallow countenance, dark spots under the eyes, pain in the head ringing in the ears noise like the rustling of leaves and rattling of chariots, uneasiness [illegible] the loins, weakness of the limbs, confused vision blunted intellect, loss of confidence, diffidence in approaching strangers, a dislike to form new acquaintances, disposition to shun society, loss of memory hectic flushes, pimples and [illegible] tions about the face, furred tongue fetid [illegible] coughs, consumption, night sweats, [illegible] frequent insanity. If relief be not obtained, [illegible] apply immediately, either in person or by letter, and have a cure effected by his new and scientific way of treating this disease, which never fails of [illegible] ing a quick and radical cure. Dr G will give One Hundred Dollars to any person who will prove satisfactorily to him that he was cured of this complaint by either of the San Francisco quacks.

Married Men,

Or those who contemplate marriage, who are suffering under any of these fearful maladies, should not forget the sacred responsibility resting upon [illegible] nor delay to obtain immediate relief.

DR. GIBBON is responsible, and will give to [illegible] patient a written instrument, binding [illegible] to effect a radical and permanent cure, or [illegible] no charge.

Cured at Home.

Persons at a distance may be CURED AT HOME by addressing a letter to Dr Gibbon, [illegible] symptoms length of time the disease has [illegible] and have medicines promptly forwarded, free from damage and curiosity, to any part of the [illegible] with full and plain directions. By [illegible] Dollars coin, in registered letter through the Post office or through Wells, Fargo & Co., a package of medicine will be forwarded to any part of the Union. All communications strictly confidential.

Caution to the Unfortunate.

Beware of the San Francisco quacks and pretenders who, with bogus sworn-to certificates, [illegible] the unwary. Some of the self-styled doctors, whose names are to be found in the daily and [illegible] newspapers of San Francisco and other places, are tradesmen and became too lazy to work at [illegible] trades. Some are ex-barbers, shoemakers, [illegible] carriers, intelligence office keepers, etc. The only way to avoid imposition is to make inquiry—it will cost you nothing and may save you many [illegible] for, as advertising physicians in eight cases out of ten are bogus there is no safety in trusting any of them until you know who and what they are. Dr. Gibbon does not deceive people by exhibiting bogus titles certificates, pretended patients' letters, etc. Dr Gibbon will satisfy persons who may call at his office of his ability to treat diseases that he professes to cure.

Address DR. J F GIBBON 623 Kearney street, corner Commercial San Francisco. Postoffice Box 1,957.

REMEMBER TO PUT BOX 1,957 ON THE LETTER. Consultations FREE.

Correspondents will please inform DR. GIBBON that they read his advertisement in the DAILY OREGONIAN. jy [illegible] dp
